GPS VEHICLE TRACKING
FLEET MANAGEMENT SYSTEM

Since 2015

LEARN ABOUT COMPANY

We started our operations as a general trading company under Ajman Free Zone Authority, UAE in January 2015. We are the first and only manufacturer in safety, security and surveillance products and accessories for automotive industry from Ajman Free Zone, UAE. We are developing safety, security and surveillance devices from our Aura facility, under the brand name - "Seqaura".

Auratraq vehicle tracking and management solution is one of the most user friendly powerful fleet management system developed and maintained by Aura FZC and is currently used by several small and medium companies with 100% satisfaction rate.

We are also providing solution for speed limiter system and mobile DVR camera surveillance system to secure roads and transport within Middle East and Africa region.

Trust us and we care about your fleet.

ABOUT

AURATRAQ VTMS

Dashboard

Gives a brief idea about total vehicles and out of that how many are running, idling, stopped or inactive status. Wastage of fuel due to idling, alarms generated, reminders to follow up and so much more informations are graphically mentioned. Instead of spending hours studying detailed reports, look at Auratraq's powerful dashboard and exactly know where you're losing money.

Live Tracking

Live tracking page is listed with all the vehicles connected and selected vehicles shown on map with real time status (running / idling / stopped). Auratraq lets you seamlessly track multiple vehicles from any part of the world. With it, you get precise driver locations and can automate the creation of delivery/collection trips.

Reports and Charts

Data means very little without the right tools to analyze it. That is why we can guarantee that you're going to enjoy Auratraq's analytical suite. It comprises useful reports, customizable visual charts, and summaries. Manage fleets like a pro with Auratraq's fleet tracking and management tools.

Alerts

Alerts and reminders keep you updated with what's happening on the road. Not only do they increase transparency, but also enhance driver safety. Auratraq platform can generate over speed, idling alerts and 100 more emergency and cautious alerts. These alerts can be configured to reach your inbox and in app notifications.

Maintenance Reminder

Stay updated with timely maintenance reminders for your fleet vehicle renewals, oil change, tyre rotation and much more. Auratraq enables fleet managers to add drivers and to generate automated reminders for driver's license, insurance etc. Auratraq allows fleet owners to upload required documents attached with vehicle data.

Job Module and Route Optimisation

Planning everyday deliveries, assigning stoppages, and managing delays is no work for a fleet manager. Especially not when a fleet management platform is perfectly capable of doing it. Skip hours of manual planning and routing by switching to Auratraq. Auratraq allows you to optimise and set quick routes from one place to another which helps to save fuel and to increase productivity.

Driver, Fuel and Temperature Monitoring

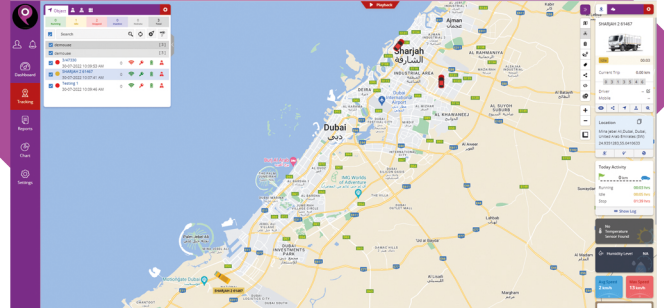

Auratraq allows fleet managers to know which driver drove each trips with driver access control and with fuel monitoring system Auratraq give access with fuel fill-drain data, so they know how fuel gets consumed. Connecting temperature sensors will give data and alerts with fluctuations of temperature for chiller cabins connected to refrigerated vehicles.

WHY YOU CHOOSE AURATRAQ

Auratraq vehicle tracking system is a proven platform enabled for tracking, monitoring and managing fleets based in Middle East & Africa region. Aura FZC developed and maintaining this software with web, Android and iOS based platforms and apps since 2015.

Smooth live tracking

Auratraq vehicle tracking system allows the fleet owners to track their vehicles with perfect smooth flowing real time tracks along with location, status and speed.

History tracking

Fleet managers can cross check the tracks for a specified date and within time to analyse the driving behaviour and other random verifications.

Immobilizing feature

Prevent unauthorized persons from driving your vehicle and control the usage of your fleet by deactivating the engine starting mechanism by activating immobilizer.

Alerts and reports

Real time alerts to email ids as well as notifications in app / web portal will make sure about the events like power disconnection, idling, overspeed and much more.

Reminders

With Auratraq Pro version, fleet managers can set reminders for service due, mulkia renewal, driver license expiry and much more to ensure timely action.

Advanced features

Advanced features like driver / passenger ID, temperature / fuel monitoring, tire management are available with pro version of Auratraq if connected with add-on accessories.
